1. Introduction

This Texas Groundwater Protection Committee (TGPC) Groundwater Issues (GWI) Subcommittee *Activity Plan* will be in effect on September 1, 2021. It will then be reviewed, updated, and replaced by a new edition of the *Activity Plan* to be in effect on September 1, 2023. *Activity Plans* approved by the TGPC will be posted on the TGPC GWI Subcommittee webpage¹.

2. Accomplishments Under the Previous *Activity Plan*

In Fiscal Year 2020 – 2021, the TGPC GWI Subcommittee approved:

- *How is Groundwater Quality Affected by Wellhead Impacts from Flooding during Natural Disasters?* white paper

3. White Papers

Using the outline posted on the TGPC GWI Subcommittee webpage, develop white papers on one or more of the following topics:

- Oil & Gas Produced Water;
- Emerging Contaminants;
- Aquifer Storage and Recovery (ASR);
- Abandoned Water Wells;
- Brackish Groundwater;
- Evapotranspiration Networks; and,
- Others.

White papers will:

- Summarize the best available scientific data on a specific groundwater issue;
- Identify areas where there is insufficient scientific data to thoroughly assess the issue;
- Evaluate the effectiveness of existing regulatory programs to address the issue; and,
- Provide recommendations or policy options to the TGPC regarding the issue.

White papers approved by the TGPC will be posted on the TGPC GWI Subcommittee webpage. Recommendations and/or policy options (including the pros and cons for each option) in approved TGPC GWI Subcommittee white papers may be included in future TGPC legislative reports and/or issued by the TGPC as policy statements. The TGPC GWI Subcommittee may request assistance from the TGPC Public Outreach and Education (POE) Subcommittee in disseminating white paper information to the public.
