

TCEQ Rules and Non-Rule Projects Applicable to TGPC (10/9/25 - 01/9/25)

Project Number and Reason for Project	Title, Description, and Project Manager	Anticipated Proposal	Anticipated Adoption
<p>2025-033-331-WS State/Legislation</p>	<p>SB 616 and SB 1061: Injection Through the Edwards Aquifer for Aquifer Storage and Recovery (ASR) and Class III Production Area Authorization Amendment: This rulemaking would implement SB 616 by amending 30 Texas Administrative Code (TAC) 331.19 to allow injection wells that transect the Edwards Aquifer, as long as the wells inject water into a geologic formation that underlies the EA as part of an ASR project and are located in the area of Williamson County east of IH-35 or in Medina County. The rulemaking would also implement SB 1061 by amending 30 TAC 331.107 to include prioritization of conservation of regional water supplies when considering an application to amend a restoration table value or range table. 30 TAC 331.108 would be amended to state that amendment to a Class III PAA authorization is not subject to opportunity for a contested case hearing if certain conditions are met.</p> <p><i>Project Manager: Dan Hannah</i></p>	<p>10/22/25</p>	<p>2/25/26</p>
<p>2026-001-293-OW State/Legislation</p>	<p>HB 2080: Update to 30 TAC Ch. 293 Relating to the Petition Requesting Commission Inquiry of a Groundwater Conservation District (GCD): Rulemaking to amend 30 TAC Ch. 293 to implement HB 2080 of the 89th legislative session, which provides additional information and requirements regarding TCEQ’s process for handling a petition filed by an affected person regarding the actions of a GCD.</p> <p><i>Project Manager: Cindy Hooper</i></p>	<p>01/14/26</p>	<p>July 2026</p>
